

THE OUTLET

The Official Member Newsletter of CORE Electric Cooperative

September 2025

DIRECTOR NEWSLETTER

I am honored to serve as a board director for District 5. It is a privilege to represent our community and to work collaboratively with my fellow board members and dedicated staff. Together, we strive to ensure our cooperative continues to deliver on its promise of providing safe, reliable, and affordable electricity to all our valued members.

My Background

I am fortunate to call myself a Coloradan for more than 50 years. Working to improve transparency and public services for the state has been a hallmark of my career. After serving nearly 17 years with the Colorado Department of Transportation (CDOT), I joined Denver International Airport (DEN) in 2012 where I currently guide the airport's customer experience efforts as the Senior Vice President of Communications, Marketing and Customer Experience.

Why I Ran

I truly value being a member and owner of a not-for-profit electric cooperative. While all members have a say in our cooperative's decisions and policies, I feel uniquely qualified to forge strong relationships with stakeholders and represent the interests of my neighbors in CORE business and policies. I am committed to transparency and forward-thinking

Stacey Stegman
Director, District 5

solutions that meet the unique needs of our members.

My Priorities

- Improving lives through choice and innovation, CORE's cooperative mission, while meeting our vision to be the premier provider of solutions for an ever-changing future.
- Upholding the principles that define our cooperative: voluntary membership, democratic control, economic participation, autonomy, education, cooperation among cooperatives, and concern for community.
- Guiding CORE towards an independent clean energy future that aligns with the state's greenhouse gas emission reduction goals. Our target is an 80% reduction

in GHG emissions by 2030, from a 2005 baseline, without compromising reliability.

- Continuing our robust wildfire mitigation program to protect our communities, employees and system.
- Supporting organic growth within our service area and addressing increasing energy demand from big data and beneficial electrification through critical system improvements.
- Maintaining the cooperative's strong financial position with a tight but safe margin between revenue and costs through a dynamic period in the industry.
- Ensuring ongoing efficient operations to minimize the impact of intensifying cost pressures and continue to provide reliable and competitively priced electricity for our members.

I am genuinely interested in hearing from our members, as your input is vital to the success of CORE. I am here to listen, learn, and speak up on your behalf.

Thank you for your trust and support. I look forward to working together to bring District 5 the Energy to Thrive.
